

One day I was contacted by the FBI. I become worried as to why they came, because I had done nothing wrong. I had heard stories about how innocent people have been taken away. Therefore, I became worried. I am a mother of four, and I was concerned about my children.

I called CAIR-Philadelphia who contacted the FBI on my behalf only a few days after speaking with me. CAIR-Philadelphia successfully resolved my case -- I have never been contacted by the FBI again. I was very pleased by the help CAIR-Philadelphia gave me.
